

PALLADIUM QUICK REFERENCE SHEET

Morcla Solutions
service @ your fingertips

PALLADIUM ACCOUNTING SOFTWARE

Proudly South African Software
Serving from SME to large Businesses
Choose the right version for your business

PALLADIUM INDIVIDUAL

Palladium Software's first package offers full functionality for a single user at no fee. Services include the invoicing of service items and general ledger recovery accounts with customers, vendors and a full general ledger for the small start-up business.

PALLADIUM BUSINESS

Limited to ten users, Palladium Business is aimed at smaller SMEs. Additional features include profit centres, light manufacturing in the form of assembly, multi-warehousing and much more.

PALLADIUM ENTERPRISE

The Palladium Enterprise platform can accommodate up to 500 users and is Palladium Software's flagship offering and boasts the company's full feature-set from projects, PoS, distribution, pick tickets, manufacturing, multi-currency, PO Approvals, freehand quotes and much more.

CORE VALUES

Our development is based on 3 core values in that it has to

INCREASE TURNOVER

HOW?

- Upsell related items with auto-prompting at time of sale
- Unique customer invoice and sales order stationery layout
- Microsoft BI reporting and integration
- Manage Crates and Pallet Stock
- Customer Delivery Charge Management
- Manage and Analyse Lost Sales Quotes with Reasons and Values
- Send Brochures on the Fly with Emailed Sales Documents

IMPROVE MARGINS

HOW?

- Manage Sales Margins using minimum margin settings by item category
- Display gross margin on sales document
- Change selling prices real-time by importing vendor Pricelists and applying a margin
- Change selling prices on the fly at time of receiving inventory maintaining optimized profit margins
- Create a bulk request for quote for selected items to multiple vendors to

ENHANCE OPERATIONAL EFFICIENCY

HOW?

- Email statements with outstanding invoices increasing cash flow
- Work from anywhere inside or outside the office using our advanced dynamic database connectivity and embedded VPN. No more cables
- A stable solution means zero downtime and lost revenue through the costs associated with switching to manual solutions
- Use temporary credit limits or convert overdue account documents to sales quotes on the fly
- View all customer information from Sales Documents including open
